
PROFILE

Digital Platform Manager with 15+ years delivering complex digital programmes across insurance, consumer tech, government, FMCG, and financial services — in New Zealand, Australia, France, and globally. Specialises in website replatforming and CMS implementation (Drupal to AEM), content migration with SEO preservation, and integration-heavy delivery across CRM, e-commerce, and analytics. Manages scope, budget, risk, and dependencies across agencies, vendors, and in-house teams using Agile, Waterfall, and hybrid methods, turning ambiguous programmes into predictable, on-time delivery.

EXPERIENCE

Digital Platform Manager · Fonterra (NZMP) · Auckland

Jul 2026 – Present

- Own the NZMP website on Adobe Experience Manager (AEM). NZMP is Fonterra's global B2B dairy ingredients brand, selling to food and nutrition manufacturers in 130+ countries.
- Led an evidence-based redesign of the site navigation, taking it from analytics review to an agreed direction, and now mapping it page by page with content owners and the digital agency.
- Audited the global News library (~290 articles) and delivered a keep / archive / merge plan that slims the live section while protecting SEO value, with no mass page deletions.
- Wrote AEM authoring guides for priority product categories, sequencing content updates into existing page components ahead of layout changes so work isn't done twice.
- Built automated release checks, including SEO and canonical-tag testing across 600+ pages and an image inventory of the product catalogue.
- Redesigned the Contact Us and product-enquiry journey and planned a market-specific entry page for an international site, working across Brand, product owners, regional market teams, customer service, IT, Procurement and the lead digital agency.

Senior Digital Product Content Manager (AEM) · IAG New Zealand · Auckland

Jan 2024 – Jan 2025

- Led end-to-end delivery of a full website replatforming — Drupal to Adobe Experience Manager (AEM) — across all IAG brands in NZ and Australia, from planning through staged go-live and hypercare.
- Identified and mitigated delivery risks across content migration and WCAG 2.1 AA accessibility, maintaining quality throughout.
- Managed multiple competing stakeholder groups (marketing, compliance, legal, development) in a matrixed environment with limited direct authority — relied on influence and clear communication to drive alignment.
- Ran Agile delivery from a live Jira backlog and coordinated user acceptance testing (UAT) with business stakeholders ahead of each staged deployment, keeping a consistent cadence under tight timelines.
- Ran platform governance and escalation management while keeping day-to-day production running across public-facing sites throughout the transition.

Digital Project Manager · Samsung (via DDB, in-house) · Auckland

May 2023 – Oct 2023

- Oversaw global delivery of Trygalaxy.com, Samsung's flagship web experience — managing 30+ country-specific versions with tight timelines and complex stakeholder dependencies.
- Coordinated UAT and a staged rollout of 90+ localised versions, achieving 490,000+ daily visitors and over 23 million total visits since launch.
- Coordinated API integrations (analytics, CRM, localisation platforms) and managed external vendor performance and deliverables.
- Managed workflows and handoffs across designers, developers, and content teams using Jira and Confluence to maintain clarity and cadence across squads.

- Ran Agile stand-ups and cross-team WIP meetings; monitored dependencies and actively managed delivery risks across concurrent workstreams.
- Developed detailed project plans, timelines, and risk registers — monitoring dependencies across country markets and external vendor deliverables.
- Defined KPI dashboards; drove continuous CRO through funnel analysis and user insight.

Founder & Owner · BlackTrading · Worldwide (Remote)

Jun 2021 – Jul 2022

- Founded and ran a crypto trading and advisory business, managing portfolios exceeding \$3M for clients seeking to navigate DeFi, web3, and the broader digital-asset landscape.
- Advised micro and small businesses on adopting and understanding digital currencies and stablecoins, translating complex crypto concepts into practical, client-ready guidance.
- Built and managed client relationships, onboarding, and delivery workflows end-to-end using Zoho as the CRM and project management platform.
- Owned all aspects of the business — strategy, client acquisition, portfolio oversight, and reporting — operating independently across global markets and time zones.

Senior Digital Project Manager · Dept. of Internal Affairs (NZ Government) · Auckland

Jul 2020 – Jan 2021

- Delivered government digital projects including website development (Drupal, WordPress), EDM campaigns, and platform enhancements for public-facing communications.
- Facilitated stakeholder workshops across diverse groups, capturing technical and business requirements for complex platform work.
- Managed project budgets and schedules; delivered WCAG 2.1 AA-compliant websites within scope.
- Developed wireframes, site maps, and user journeys aligned with UX/UI best practices for citizen-facing digital services.
- Acted as day-to-day contact for cross-agency stakeholders, providing updates, managing expectations, and resolving blockers quickly.

Senior Product & Customer Manager · Philip Morris International · Auckland

Mar 2019 – Jan 2020

- Led digital transformation of IQOS.co.nz including Salesforce CRM integration, CS Cart e-commerce, and webchat platform — managing multiple matrixed stakeholders across marketing, tech, and customer service.
- Designed segmented customer journeys improving lead quality and post-lead conversion across support and sales flows.
- Developed wireframes, site maps, and user journeys aligned with UX/UI best practices — translating business requirements into scoped digital solutions.
- Ran project plans, timelines, and scope definitions; coordinated dev teams and external agencies through stand-ups and WIP meetings.

Social Business Lead · Suncorp · Auckland

Dec 2017 – Jan 2019

- Led digital adoption and social strategy across consumer business units; partnered with leadership to deliver measurable engagement and change programmes across a multi-brand environment.
- Managed internal stakeholder relationships and external vendors to deliver transformation initiatives on time and within budget.

Senior Digital Project Manager · Nestlé · Auckland

Jul 2017 – Nov 2017

- Delivered SEO, paid social, and EDM campaigns across Nestlé's FMCG brand portfolio; managed web content, agency performance, and end-to-end digital marketing execution.
- Oversaw end-to-end website project delivery across WordPress, WooCommerce, and corporate sites — translating client requirements into scoped website solutions aligned with business goals.
- Supported proposal development by assisting the sales team with scope definition, delivery assumptions, budgets, and schedules.

- Acted as day-to-day client contact providing updates and managing expectations; managed dev team, ran stand-ups and client WIP meetings using Monday.com and Teams.

Product Owner — Digital · BNP Paribas Fortis · Paris

Nov 2015 – May 2016

- Launched AEM-based digital platform with Adobe; delivered AI-powered customer engagement tools and aligned business units on digital strategy tied to commercial KPIs.

SKILLS

Programme & Delivery

Website Replatforming & CMS Migration · Content Migration & SEO Preservation · Agile, Waterfall & Hybrid Delivery · UAT, Go-Live & Hypercare · Risk, Issue & Dependency Management · Vendor & Agency Management · Budget Forecasting & Resource Planning · RFP / SOW writing · WCAG 2.1 AA Compliance · Customer Journey Mapping · OKR & KPI Definition · Localisation & Multi-Market Delivery · GDPR & Privacy by Design · Enterprise AI Adoption & Governance · LLM Evaluation & Risk Management
